Engineering Societies

This is the first of two groups of the various student engineering societies. The second group will appear in the November issue of the ENGINEER.

Quadrangle Jesters

Quadrangle Jesters is one of the newest organizations in the Engineering College. It is the Engineering dramatic organization, and is open to all engineering students. The Jesters present an all-male performance annually.

Tau Beta Pi

Tau Beta Pi is the national engineering scholastic honorary fraternity. Members are affiliated by invitation. A certain percentage of the Junior and Senior classes are eligible for membership each year. The organization, although an honorary, is active. Each year it presents a slide rule to the freshman engineer who has maintained the highest point average.

Eta Kappa Nu

Eta Kappa Nu is the honorary electrical engineering fraternity open to students in that department who have averages of 2.5 or better. Dinner meetings are held regularly. Several social events are planned for the year. Each year a handbook is awarded to the Sophomore who has the highest scholastic standing.

Texnikoi

Texnikoi is the "Sphinx" of the Engineering College. At the close of each year, 115 men are selected for this honor. Eligibility is based on participation in campus activities. Each year Texnikoi awards a plaque to the Freshman in the Engineering College who has been most outstanding in activities and scholarship.

American Ceramic Society

Membership in the American Ceramic Society, Student Branch, is open to any student enrolled in Ceramic Engineering. The purpose of the organization is to promote interest in practical ceramics. Speakers from the industry are heard at regular meetings. The officers for the present year have not been elected.

American Institute of Chemical Engineers

Membership in the American Institute of Chemical Engineers, Student Branch, is open to anyone enrolled in the College of Engineering, working for a Chemical Engineering degree. The group has not only Chemical Engineers for its speakers but also those prominent in other fields. Special meetings are called whenever there is some outstanding speaker available.

American Institute of Electrical Engineers

Membership in the Student Branch of the American Institute of Electrical Engineers is open to those in the Department of Electrical Engineering who have the rank of a Sophomore or above.

American Society of Civil Engineers

Membership to the American Society of Civil Engineers is limited to Sophomores, Juniors, and Seniors in the Department of Civil Engineering. Meetings are held twice a month, at which times various men in the civil engineering field appear as speakers.

American Society of Mechanical Engineers

Membership is limited to members of the Junior and Senior classes in Mechanical Engineering. The organization takes inspection trips at various times and holds joint meetings with the American Society of Automotive Engineers. Its purpose is to study various phases of Mechanical Engineering along with its developments.

Student Society of Industrial Engineers

Membership to the Student Society of Industrial Engineers is confined to students enrolled in that department. The organization has speakers from the other colleges of the campus and also prominent engineers. The group plans several outings during the year and is active in intramural activities.
